

Agenda at a Glance

AWS Data, Databases, and Analytics Online Series

DAY 1 (ON-DEMAND)

Opening Session

60 mins

Opening Session: Olivier Klein, Lead Technologist, AWS

Tracks and Sessions

	Track 1 Data Movement & Management	Track 2 Migrate your Databases & Data Warehouse to AWS	Track 3 Modernize your Databases & Data Architecture
30 mins	How to ingest data seamlessly to build your data lake (Level 200)	Migrate and modernize from legacy databases to AWS (Level 200)	Purpose-built databases: Choose the right tool for each job (Level 200)
30 mins	Build your data lake on Amazon S3 in days (Level 200)	Deploying open source databases on AWS (Level 300)	Building modern application with modern databases (Level 300)
30 mins	Accelerating data analytics with cloud-native file storage (Level 300)	Migrate your on-premises data warehouse to Amazon Redshift (Level 200)	Extreme performance at cloud scale: Supercharge your real-time applications (Level 300)

DAY 2 (ON-DEMAND)

Opening Session

60 mins

Opening Session: Dean Samuels, Lead Architect, AWS

Tracks and Sessions

	Track 1 Accelerate insights from your Data	Track 2 Accelerate insights from your Data
30 mins	Data warehousing on AWS: Amazon Redshift use cases and deployment patterns (Level 200)	Building data integration services for real-time on AWS (Level 200)
30 mins	Processing Big Data with Hadoop, Spark, and other frameworks in Amazon EMR (Level 300)	Unite streaming and batch analytics with AWS Glue (Level 300)
30 mins	Building scalable, secure log analytics with Amazon Elasticsearch Service (Level 200)	Embedding analytics into applications with Amazon QuickSight (Level 200)

* Agenda subject to change

Session Detail

Level 100

Introductory

Sessions are focused on providing an overview of AWS services and features, with the assumption that attendees are new to the topic.

Level 200

Intermediate

Sessions are focused on providing best practices, details of service features and demos with the assumption that attendees have introductory knowledge of the topics.

Level 300

Advanced

Sessions dive deeper into the selected topic. Presenters assume that the audience has some familiarity with the topic, but may or may not have direct experience implementing a similar solution.

Level 400

Expert

Sessions are for attendees who are deeply familiar with the topic, have implemented a solution on their own already, and are comfortable with how the technology works across multiple services, architectures, and implementations.
